

## Lap Band and Weight

### Lap Band and Weight

According to Rebecca, her insurance company picked up the tab for the procedure and the next step was actually getting the procedure done.

Initially Rebecca notes that she was scared about the procedure but the staff at the lap band center where she went made her feel comfortable and the next thing she knew she was having surgery.

Since having the lap band procedure, Rebecca had gone from a size 22 to a size 16, with some of her wardrobe dropping down on her; wardrobe that once she had problems fitting into.
